BAC-50 (V5 ATEX-IECEX) SPARE PARTS KIT

The Critical Spare Parts Kit contains those consumables and spare parts that Lectrodryer deem are critical to the functioning of the dryer.

Critical Spare Parts Kit For Stock

The **Critical Spare Parts Kit** contains consumables and spare parts that Lectrodryer deems critical to the functioning of the dryer. By having these parts on hand, you decrease the risk of down time that could result if a replacement part is out of stock or delayed in transit. It also prevents the occurrence of an issue arising at a time when our facility is closed due to time zone difference, holidays, or weekends. The kit saves money up front and helps you avoid expensive rush delivery fees. See the chart below for a list of items included in the Critical Spare Parts Kit with the discounted pricing.
